

Jolly Phonics

Phonics- In Action

Bathurst

Thursday 10th August 2017

This workshop will focus on developing a deeper understanding of Jolly Phonics and how to maximise best practice of the program in your classroom.

In this full day course teachers will:

- look at how the 5 skills fit into our National Curriculum;
- explore what a Jolly Phonics lesson looks like. Teachers will work collaboratively to plan a daily lesson;
- learn how to incorporate Jolly Phonics into their literacy block;
- learn how to maximise the Jolly Phonics resources in the classroom, including Jolly Phonics for the Interactive Whiteboard and the Games CD;
- gain practical strategies to assist the emergent reader and writer.

Teachers will gain hands-on, practical activities which can be used to teach phonics in a fun and interactive way.

This course is aimed at Foundation Year and Grade 1 classroom teachers, support teachers and teacher aides who have completed an introductory course or similar.

Please note that this workshop does not include the program components of spelling and grammar (Jolly Grammar).

Your Presenter Santina DiMauro

Santina is a world renowned international Jolly Phonics speaker and an experienced teacher who has taught in both state and private Catholic schools in Australia. Santina, more recently, has been an interventionist at a Sydney public school working with targeted students.
