### Comprehension Becoming an Engaged and Strategic Reader

Comprehension is the goal of reading.

Good readers have a purpose for reading, whether it is to look for specific information or to read for pleasure. There are strategies that we can teach children to help them become purposeful, active readers.

This course focuses on the 6 strategic steps children can use when reading - making connections, visualising, predicting, questioning, finding importance and summarising.

The importance of vocabulary to enhance comprehension will be explored through fun hands on activities.

Teachers will participate in a variety of interactive comprehension activities throughout the workshop.

**Suitable for grades 1 - 6 teachers and Learning Support Staff**

### Your Presenter Santina DiMauro
