

# Jolly Phonics

## Phonics- An Introduction

### Melbourne

Thursday 30<sup>th</sup> August 2018

#### Your Presenter Jacqui Tarquinio

At this workshop teachers will explore Jolly Phonics as an example of a phonics program that meets the new National Curriculum Standards.

This full day course aims to provide teachers with:

- an appreciation of what Synthetic Phonics really is;
- the 5 skills of the Jolly Phonics program and how to implement them with practical activities;
- how to incorporate Jolly Phonics into a literacy block;
- how to use Synthetic Phonics in reading and writing;
- a look at Jolly Phonics resources, including the assessment tool.

Teachers will gain hands-on, practical activities which can be used to teach phonics in a fun and interactive way.

This course is aimed at Foundation Year and Grade 1 classroom teachers, support teachers and teacher aides.

**Please note that this workshop does not include the program components of spelling and grammar.**

Jacqui has been a primary school teacher for over 15 years and has been using the Jolly Phonics program for 10 years. She first learnt the program when working in the UK and was surprised by its outstanding results with non-English speaking learners. Obtaining her Jolly Phonics training shortly after in Australia, she has introduced the program to many schools in Victoria.

After all these years, Jacqui still gets excited by the results that the Jolly Phonics program achieves. She is currently teaching Jolly Phonics in a local school... all the whilst travelling around Melbourne flying the Jolly Phonics flag.
